

RESEARCH AWARD ANNOUNCEMENT

PURPOSE

The European Society of Integrative Medicine (ESIM) is announcing an innovative award “Excellence in Integrative Medicine Research Award”, generously supported by Biologische Heilmittel Heel GmbH. This international prize will recognize innovative and excellent scientific projects in the field of integrative medicine (cooperation of conventional and complementary medicine). Two different categories will be rewarded with 10.000 Euro each: one focusing on basic research, and the other focusing on clinical research.

AWARD

To qualify for this award, nominators must submit one scientific manuscript either published or accepted for publication in an indexed peer-reviewed journal during the years 2017 or 2018. Deadline for manuscript submission is May 18, 2018. Please send the nominated manuscript to esim@charite.de accompanied by a brief one page statement in common English for the general audience describing why this scientific work should be awarded and a brief *Curriculum vitae* of the nominated author(s). The award winning manuscripts will be selected by an independent committee of international scientists upon the following 3 criteria: innovation, level of relevance and scientific excellence. The Award ceremony will take place in Ljubljana, Slovenia during the 11th European Congress for Integrative Medicine September 21-23, 2018 <http://www.ecim2018-slovenia.org/>

The aim of the European Society of Integrative Medicine is the advancement of science, research, education and further training, support for medical care and providing advice on policy in the realm of integrative medicine. This includes holding scientific events and conducting dialogue with professional health care and public health associations and institutions.

Biologische Heilmittel Heel GmbH is a pharmaceutical company that develops, manufactures and distributes medicines based on natural substances. The company is strongly engaged in the field of scientific research in natural healthcare and actively fosters the concept of Integrative Medicine to improve patient care and health.
