Dear Colleagues,

We are pleased to invite you to attend the 11<sup>th</sup> European Congress for Integrative Medicine, "The Future of Comprehensive Patient Care" (ECIM) that will be held in Slovenia at the end of September 2018. **ECIM2018** will be joined with the Biennial International Symposium on the Bi-Digital O-Ring Test (Japan), the Annual International Symposium on Acupuncture, Electro-therapeutics and latest Advancements in Integrated Medicine (New York, USA) and with the 1<sup>st</sup> Slovene Ayurveda Congress with international participation. The aim of the congress is to promote health and develop integrated and sustainable treatment for acute and chronic diseases.

The central topics of the Congress are the efficacy of Complementary Medicines and practices, their integration with the orthodox medicine and the future development of Integrative Medicine. One of the aims of ECIM 2018 is the creation of a network between researchers and medical doctors, and both of the official and Complementary Medicine, to stimulate the scientific exchange and constructive dialogue and promote the actual integration of different branches of medicine.

Therefore, this Congress offers an important opportunity to approach this decisive challenge for the future of Integrative Medicine. Experts and authorities of the integrative and mainstream medicine will address the topics of great clinical relevance such as Acupuncture, Anthroposophic Medicine, Ayurveda, Psycho-Neuro-Endocrine-Immunology (PNEI), Chronic Pain, Nutraceutical, Food Intolerance, Integrative Sport Medicine, Integrative Oncology, Integrative Gastroenterology, Integrative Pediatrics, Integrative Rheumatology, Integrative Ob/Gyn, Integrated Thermal Medicine, Integrative Dentistry, Holistic Systems, Homeopathy, Mind-Body-Medicine, Neural Therapy, Phytotherapy, Bi-Digital O-Ring Test, Quantum Medicine, Environmental Medicine, Hyperbaric Medicine, Education and clinical practice, Evidence-based Integrative Medicine, Electromagnetic radiation and quality of life.

The conference program will also include other subjects of great interest, such as the integration of Complementary Medicine in the healthcare systems in Europe. This scientific event has the aim to develop the basis of a platform on the main guidelines of the clinic and research for the future, the possible models of integration and development for Complementary medicine in the European and international perspective.

The Congress will be organized by ***Alma Mater Europaea – European Center, Maribor***, an independent higher education institution that offers 18 accredited HEI programmes at all three Bologna cycles. The main focus of AMEU is on Health programmes, including nursing and physiotherapy. For the last few years AMEU has also been offering a post-graduate study programme of Health studies that has a special focus on integrative health studies. The congress will be held under the patronage of the President of the Republic of Slovenia, Mr. Borut Pahor, and the President of the European Academy of Sciences and Arts, prof. dr. Felix Unger.

The European Congress for Integrative Medicine will be organized on the best possible academic and professional level, due to long tradition of AMEU in organizing these kinds of events. The working bodies (organizing committee, scientific committee and the programme committee) will create the scientific program of the Congress which will demonstrate the importance of this international congress and will provide once again the possibility of collaboration, support and exchange of state-of-the-art scientific and professional knowledge in the area of integrative medicine. Furthermore ECIM 2018 in Slovenia will help the European Society in achieving its aim to allow the regional scientists to become more actively involved in the work of the association and to discuss latest advances. This will also enable ESIM to establish its presence in Middle Europe, and to widen personal contacts for future scientific cooperation and networking.

The conference will allow your Company/Organisation/Association/Federation to promote your activities through various workshops, stands etc.

For more information, please visit our Web site at: [www.ecim2018-slovenia.org](http://www.ecim2018-slovenia.org) (will be operative in July 2017), or <http://www.ecim-congress.org>, or write to [ecim2018@almamater.si](mailto:ecim2018@almamater.si).

## **SOCIAL/CULTURAL EVENTS HOSTED BY SPONSORS**

Alma Mater Europaea will assist you to organize the social/cultural events which your company would like to host during the congress in Ljubljana and its surroundings. Please contact us with your ideas and requirements and we will put forward proposals, calculate the costs and organize your event.

## **HOTELS / TBA when the venue is confirmed**

Once the venue of the congress is confirmed, we will make a block reservation of hotel rooms in different price categories for participants, sponsors, exhibitors and their guests in different price categories. Participants, sponsors and exhibitors will be able to book the hotel rooms they require by themselves directly at the hotel of their choice with the congress code without an agency's surcharge.

## **CONGRESS VENUE**

All information regarding the host city and the venue will be available on the official web site of the congress (online in July 2017): [www.ecim2018-slovenia.org](http://www.ecim2018-slovenia.org).

If you need any additional or particular information, please kindly contact the secretary general at: [ecim2018@almamater.si](mailto:ecim2018@almamater.si)

We look forward to hosting you in Slovenia.
