# WELCOME MESSAGE

## Greetings from the President of Alma Mater Europaea - ECM

We are pleased to invite you to attend the 11<sup>th</sup> European Congress for Integrative Medicine, "The Future of Comprehensive Patient Care" (ECIM 2018) that will be held between 21-23 September 2018 in Ljubljana, Slovenia. The aim of the congress is to promote health and develop integrated and sustainable treatment for acute and chronic diseases, including evidence-based medicine.

Your conference host, Alma Mater Europaea - ECM, is proud for having been given the opportunity to organise this congress in Slovenia. This is seen as an added value, supporting the existing university programmes, offered by Alma Mater Europaea under the academic patronate of European Academy of Sciences and Arts in Salzburg. As a young and dynamic higher education institution we are encouraged to develop new paths, needed to take care of the society for the future. This shows in the accreditation of study programmes (BA, MA and PhD level) that are outside of the mainstream topics, such as the master programme in Health Sciences that includes Integrative Health Sciences. That is why we feel very honoured and privileged for the opportunity to organise this European congress of integrative medicine 2018, to contribute to health and well-being of people.

We look forward to welcome you to ECIM 2018.

We look forward to welcome you to Slovenia.

Sincerely,

Prof. dr. Ludvik Toplak

President of Alma Mater Europaea - ECM

Vice-Rector of Alma Mater Europaea of the European Academy of Sciences and Arts
